Room: Zoom and Avenue

Office Hours: Please email rethman@mcmaster.ca to request a meeting

Land Acknowledgement

While meeting for this course, we recognize and acknowledge our presence on the traditional territories of the Mississauga and Haudenosaunee nations, and within the lands protected by the “Dish With One Spoon” Wampum agreement. This acknowledgement gives rise to a commitment to honour treaties and work toward decolonization and establishment of just relationships.

Course Description

This course seeks to address and open up the question of “the future” through a series of political, theoretical, and cultural excursions. Starting from the hypothesis that many of us today experience the present as extremely cynical and politically unpromising and closed, we will examine conceptual, ethical, and affective openings to the problem of futurity and political possibility – openings that might help us to understand and address this present in different ways. To this effect, the materials assigned for this course can be of a cultural and speculative nature. Overall, the course invites experiments in thinking, rather than following down well-trodden paths.

To trim, so to speak, a very complex subject and matter, in this course we will be largely focusing on two highly relevant registers: the current rise in political and populist authoritarianism and climate change. We will also be discussing questions of the new materialism, decolonization, and the future of the research imagination.

Course Objectives

By the end of the course students should be able to:

- Articulate theoretical and conceptual perspectives issues of temporality, histories, and futures
- Have a conceptual and an empirical understanding of some particularly significant political and cultural challenges related to addressing the future
- Be able to understand how analysts and others build up arguments across scales of space and lines of time
- Enter with confidence debates related to the future of our planet
- Produce a final research paper that evinces an element of originality in its theorization, empirical content, or analytical finesse.

Required Materials and Texts

There are no required textbooks for this class. All required readings are listed below. Most are accessible through the library catalogue; simply search for the journal, year, and name of the author. Those that are not accessible through the library catalogue will be posted on Avenue to Learn or distributed via email.

Course Format

The course will consist of a mix of synchronous presentations, and discussions. We will use Zoom to run weekly two hour seminars. The third hour I will be available for individual consultation

Course Evaluation

Presentation (15 %)

Classes will be structured as discussions based on assigned readings. In the beginning of the course, students will be assigned to lead the discussion for particular weeks. The goal is not so much to present your response to the class as to use it as a framework for discussion, allowing for the following: for each text, presenters will summarize their sense of the text's general meaning/ significance, identify and define key concepts (including difficult or troubling parts of the text), and then invite others to respond. Once most members of the class have had a chance to identify other themes or concepts and share impressions, presenters will identify one or two key questions or problems arising from the text for the class's consideration, and then monitor discussion.

Seminar Participation (30%), ongoing

The participation grade covers Class participants are responsible for having read the material and coming to class ready to contribute to the discussion. Prior to each seminar students will post on Avenue a one page summary document on the texts they have read. This document will contain:

Research Proposal, (15%), due November 3

The purpose of the research proposal is to develop a plan for your final research paper. It aims to make sure that you have a research plan that is a good one. It can be up to 3 single-spaced pages with regular margins and a 12-point font, not including the bibliography.

Research paper, (40 %), should not 4000 words. Due December 15.

Your research paper should build on your proposal. In grading the paper, the following criteria will be used: (a) is there a thesis or an argument clearly stated at the beginning of the paper, and is the paper organized around that? (b) Does your paper address course themes? (c) Are the knowledge gaps or counter-arguments that your paper addresses identified and articulated at some point in your paper? (e) have you brought your research up to date? (f) Is your writing clear, engaging, and adequately proofread? You do not need to include all the sources you cited in your proposal, but you should be sure to use those that are most relevant.

Please remember to keep copies of all your work in case anything goes astray.

COURSE POLICIES

Submission of Assignments

Unless otherwise noted below, all assignments will be submitted through folders that will be available on the Avenue to Learn site for this course.

Grades

Grades will be based on the McMaster University grading scale as illustrated below.

<u>Mark</u>	<u>Grade</u>
90-100	A+
85-90	A
80-84	A-
77-79	B+
73-76	B
70-72	B-
67-69	C+
63-66	C
60-62	C-
57-59	D+
53-56	D
50-52	D-
0-49	F

Late Assignments

For the research proposal and research paper all students have the option of an extension of up to one week of the deadline specified in the course outline above. All requests for deadline extensions longer than one week must be made in advance of the assignment's original deadline, and must be accompanied by a documented justification for why a deadline extension of longer than a week is needed. Challenges such as assignments or final presentations in other courses that were announced earlier in the term should be anticipated and planned for. It is your responsibility to make contingency plans for unforeseen problems such as computer failures. Assignments that are completed after the extended deadline, if accepted, will be penalized by one grade point per day including Saturday and Sunday (a grade point is the interval between A+ and A, A and A-, etc.).

Absences, Missed Work, Illness

Please inform me of any absences or problems with the course,

Courses with an On-Line Element

This course will be using online technologies, including Avenue to Learn, e-mail, and Zoom. Students should be aware that, when they access the electronic components of a course using these elements, private information such as first and last names, user names for the McMaster email accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in a course that uses on-line elements will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

Online Proctoring

Some courses may use online proctoring software for tests and exams. This software may require students to turn on their video camera, present identification, monitor and record their computer activities, and/or lock/restrict their browser or other applications/software during tests or exams. This software may be required before the text/exam begins.

Academic Integrity Statement

You are expected to exhibit honesty and use ethical behavior in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity. **It is your responsibility to understand what constitutes academic dishonesty.**

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behavior can result in serious consequences, e.g., the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: “Grade of F assigned for academic dishonesty”), and/or suspension or expulsion from the university. For information on the various kinds of academic dishonesty please refer to the Academic Integrity Policy, Appendix 3, www.mcmaster.ca/senate/academic/ac_integrity.html

The following illustrates only three forms of academic dishonesty:

- a) Plagiarism, e.g. the submission of work that is not one’s own for which other credit has been obtained. (Insert specific course information, e.g., style guide).
- b) Improper collaboration in group work.
- c) Copying or using unauthorized aids in tests and examinations

Conduct Expectations

As a McMaster student, you have the right to experience, and the responsibility to demonstrate respectful and dignified interactions within all of our living, learning, and working communities. These expectations are described in the Code of Students Rights & Responsibilities (the “Code”; <https://secretariat.mcmaster.ca/app/uploads/Code-of-Student-Rights-and-Responsibilities>). All students share responsibilities of maintaining a positive environment for the academic and personal growth of the McMaster community members, whether in person or online.

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning rooms. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviors that interfere with university functions on online platforms (e.g. use of Avenue2Learn, WebEx, or Zoom for delivery) will be taken very seriously and will be investigated. Outcomes may include restrictions or removal of the involved students’ access to these platforms.

Faculty of Social Sciences Email Communication Policy

Effective September 1, 2010, it is the policy of the Faculty of Social Sciences that all e-mail communication sent from students to instructors (including TAs), and from students to staff, must originate from the student's own McMaster University e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student's responsibility to ensure that communication is sent to the university from a McMaster account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

Course Etiquette

In this course we value integrity, inclusiveness, and teamwork. As all of us make the transition to on-line course delivery and teaching, I would like for us all to emphasize the values of mutual respect, dignity, and responsibility. Sometimes issues, glitches in electronic systems, and other concerns can feel overwhelming. Please be kind to each other, and patient. I am always happy to assist you in, and to make this the experience as I can.

Course Communication

If you wish to communicate with me, please try to be as clear and concise as possible. If you are unsure about your message, read it out aloud. I do this often before I send a message, since it helps me to better understand how the message might "land" on the other end. And/or review your written message. Not only will this let you review your questions, concerns, and/or ideas, but also make sure that the tone is appropriate. I will answer e-mails on weekdays between 9:00 am and 4:30 pm. Given the volume of messages I receive, you may have to wait up to 48 hrs for a reply.

Course Modification

The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the students to check her or his McMaster e-mail and course websites weekly during the term and to note any changes.

Extreme Circumstances

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labor disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L, and/or McMaster email.
