Through this course, you will develop an understanding of how the anthropological approach can be used to better understand the human condition, past and present.

Course Objectives:

Through this course, you will:

- Discover the diversity of research in the sub-disciplines of anthropology related to specific themes
- Understand the theories, methods, and techniques used by anthropologists
- Develop an understanding of the human place in nature from an anthropological perspective
- Appreciate the relevance of anthropological knowledge and practices to society as a whole
- Think critically about contemporary issues and debates
- Enhance your comparative, analytic, and critical thinking skills through reading and written assignments

Required Materials and Texts:

Sex, Food and Death – *Anthropology 1AA3*. Custom Course Kit for McMaster University. Oxford University Press, 2017. NOTE: This text is new, effective last September 2017. Please DO NOT use or purchase any versions of this text that are older than September 2017 as the readings are completely different, and test and assignment questions are based upon the readings in the new text, not older ones.

Class Format:

Two 50 minute lectures per week. There are no tutorials for this class, but this course is a blended learning course. This means that, in lieu of having a third lecture period each week, you will spend this time working on projects, watching films or completing other assignments.

Teaching Assistants/Who is my TA

Note: There are no weekly tutorials for this course but your TA's have weekly office hours. TA names/office hours/contact information will be posted on Avenue. Please visit your TA with any questions about assignments/grading of assignments.

Course Evaluation - Overview: - Course grades will be assigned based on the following learning assessments:

1. **Midterm Test: 25%**
2. **Three course activities/assignments – 3 @ 15% each** (see the due dates on Avenue)
3. **Final Exam: 30%**

Course Evaluation – Details

Midterm Test: The midterm test is worth 25% of your final mark and it is held during our regular class on October 24. This test covers all course material up to and including material for October.

Three course activities/assignments: You will choose three essay-based assignments to complete. Each is worth 15% of your final grade. Each assignment shall be between 1200-1400 words, not including a bibliography. Note that this word count **INCLUDES** in-text citations. You will be given at least two options for most assignment but note that you can only do **one per week**, which means that you cannot do both options 1 and 2 (where available) during any one week. You have **4 to choose from. Note that we also will not mark all 4 and take the best 3/4 marks. You can only select three assignments to do. Due dates:**

Final Exam: The exam will consist of multiple choice questions only. They will cover all assigned readings, lectures, films, guest talks (if applicable), and other course material.

Policy on the Submission of Assignments - Assignments submitted by e-mail **will not be accepted**. No extensions will be given unless written certification, approved by your Faculty office, is provided. Please note that policies concerning the use of MSAFs (McMaster Student Absence Forms) have changed (see <http://www.mcmaster.ca/msaf/>). Please see the assignment for directions on using an MSAF on our assignments as there are restrictions in place.

Late penalties: 20% off per 24-hour period (or part thereof late) for assignments, up to 72 hours (including weekends). After 72 hours, a grade of 0 is allocated.

Policy on Reappraisals of Assignments:

We cannot communicate with you over email re: grades. You must see us in person during office hours. If you are concerned or confused about the grading of your assignment after you get it back, then your first step is to see your TA during their office hours. After this, if you still have questions, then please see Professor McGarry during her office hours. Remember that I grade your work carefully and rarely change grades. If you would like me to reappraise your work, then please submit (to Professor McGarry) the original paper with a maximum 300-word (typed) explanation of why you think you deserve a higher mark. The Professor will read your paper and your grade may go up, go down or stay the same. Generally speaking, marks do not tend to increase. There was only one case last year of a grade increase. Remember that in first year university courses, student grades, on average, tend to decrease at least 10-15% from high school averages....and that's assuming that you are putting a lot of effort into your work. In other words, it takes a lot more effort and hard work to achieve the "A" grade that you may have easily received in high school. Please also note that marks are not awarded (unfortunately!) for effort but for the quality of the final product (achievement).

Please note – all deferred and makeup exams will be in essay format – no multiple choice.

MSAF (McMaster Student Absence Form)

In the event of an absence for medical or other reasons, students should review and follow the Academic Regulation in the Undergraduate Calendar “Requests for Relief for Missed Academic Term Work”. Please note these regulations have changed beginning Spring/Summer 2015.

Avenue to Learn (ATL) -Lectures will be presented using Power Point, an abbreviated version of which will be posted on ATL. You must be registered in the course to have access to the 1AA3 site. **Please familiarize yourself with the Avenue to Learn system.**

You can access ATL at: <http://avenue.mcmaster.ca/?logout=1>

Lecture Capture/Podcasts: will be posted on Avenue approximately 3-4 days after each lecture date. NOTE: films and guest lectures (depending upon copyright agreements) may NOT be podcast. In addition, the podcast system is not 100% accurate, so please do not rely upon podcasts only. It is best to attend class regularly. Podcasts are available for online streaming and individual student use only.

Correspondence - I will check my email regularly throughout the week, so you can expect a response within approximately **48 hours**. Please put **1AA3 in the subject line** of your email and **include your name and student number** at the end of all correspondence.

Student Behavior and Responsibilities –

Your learning – it is your responsibility to **keep up with the readings** – do not leave them until the night before the exams. Attendance in this class is **essential** if you want to do well in this course. You are expected to think about the readings and integrate them into the information and concepts presented during lecture.

Classroom behavior – Please **do not be afraid to ask questions** or provide constructive comments! If you do not understand something, or if I have gone over a concept too fast, stop me and ask a question. Chances are if you do not understand something, other people in the class are in the same position.

Please ensure that cell phones are turned off (including text messaging, Twitter, etc...) and **arrive on time for class**. If you have to leave class early, please sit near one of the exits. **Laptop computers** may be used in class for taking notes, but students using their computers for any other purpose (e.g., checking Facebook) will be asked to turn their computers off. Please be polite to your neighbours and **keep conversation to a minimum**.

NOTE THAT ALL WORK MUST BE COMPLETED: We do not re-distribute/re-weight grades in the event of an MSAF. An MSAF simply gives you an extension on work missed.
