## **Course Description**

This course explores the political process in Canada. It starts by asking a question: What does politics in Canada actually look like? Many of us are familiar with the politics that happens during elections: Political Parties competing for our votes with the promise that they and only they have the solution for whatever problems ail society. This *is* politics. But politics *is not* limited to Election Day or to political parties and their campaign promises. Politics saturates our daily lives, it crisscrosses our economic and social interactions, it is embedded in the formal and informal rules under which we all live. We will explore this broader sense of politics - investigating many of the key ideas and institutions that structure and govern our lives in Canada. We will scrutinize concepts like democracy, liberty, and equality. How does one organize a society based on these ideas? We will examine how these (and other) ideas have influenced the Canadian political landscape – from the platforms of the major Political Parties to the institutions of the Canadian state.

## **Course Objectives**

By the end of the course students should be able to:

- Demonstrate a clear understanding of:
  - The key **ideas** that have influenced the development of the Canadian state
    - Ideas that are common to/differentiate the major political parties in Canada
  - The key political **institutions** of the Canadian state
    - The Crown, the Executive, the House of Commons, the Senate, the Courts and the Constitution, the Federal-Provincial division of powers
  - Current political **issues**
- Express ideas both orally and in written (essay) form

## **Required Materials and Texts**

All required readings are available (at no cost) on Avenue to Learn via embedded links in the relevant Modules.

## **Class Format**

This course will run on an online platform (Avenue to Learn). All course lectures and readings will be available for viewing on the first day of class. Please note that there are **multiple Modules** associated with each individual week of the class.

There are two options for course participation: Asynchronous (no live tutorials) or synchronous (live tutorials). In the case of synchronous participation, tutorials will be held in-person over Zoom.

The key to doing well in this course is keeping up with the assigned work – including the lectures and the tutorials.

*Please note that many of the concepts covered in lecture will not be covered in the required readings. Watching course lectures is key to your success.*

## **Course Evaluation – Overview**

1. Participation – 30%
2. Module Quizzes – 5%
3. Mid-term test – 25%: Tuesday May 25, 12:30-3:30pm
4. Final Exam – 40%: Monday June 14, 11:30am; Due on Wednesday June 16, 11:30am.

## **Course Evaluation – Details**

### **Participation – 30%**

Your voice matters!

This course provides you with the opportunity to discuss some of the key political issues confronting modern Canadian society. You will be responsible for solving 3 political scenarios/problems this term. Your solution to these problems (i.e. your course participation) can occur in one of two ways:

Option 1). You can choose to join a synchronous (live) tutorial. If you choose this option, you will be meeting in real-time (on Zoom) with other students and the course instructor every week (on Mondays from 10:30-11:30). You will also be meeting with a smaller (4-5 person) student group (without the course instructor) in the time between tutorial sessions. The smaller student group will **collectively** work on a solution to the assigned political problems. Group solutions will be presented to the rest of the tutorial in the next live session.

Option 2). You can also choose to participate asynchronously (no live tutorials). If you choose this option, you will work on the same tutorial assignments as Option 1 students. However, your participation **will not** involve live tutorial conversations. Instead, you will develop an **individual** response to each assigned tutorial problem. Your response (in the form of a 3-minute video presentation and 2-page (double spaced) summary) will be uploaded to the Discussion Forum on Avenue to Learn.

For administrative reasons, Option 1 is the default option (i.e. you are automatically enrolled into Option 1). If you would like to select Option 2, you must send me an email by May 7 at 4:00pm.

Note: Because Option 1 involves group work, you cannot switch between Option 1 and Option 2 in the midst of a tutorial assignment. However, if you would like to switch

between Option 1 and Option 2 at the beginning of a new tutorial assignment you are welcome to do so - as long as you first inform me.

Each of the 3 tutorial assignments is worth 10% of the total course grade (30% in total).

A detailed week-by-week overview of the assignments is contained in the Course Guide posted on Avenue.

Assignment 1 is due on May 17 at 10:30am.

Assignment 2 is due on May 31 at 10:30am.

Assignment 3 is due on June 14 at 10:30am.

### **Module Quizzes – 5%**

This course has 12 modules. At the end of each module, you will find a multiple-choice quiz. Each quiz has 10 questions and a 20-minute time limit. Each quiz is worth 0.5% - however, I will only include the top 10 quiz scores in your final grade (i.e. the lowest 2 quiz scores will be dropped).

A quiz will only become available **after** you have watched the relevant lecture videos in the Module.

You can complete the quizzes as early in the course as you choose. However, a quiz must be completed **no later** than one week (7 days) after the scheduled module start date (by 11:30pm.). For example, Module 1 has a scheduled start date of May 3. Therefore, the Module 1 quiz must be **completed** by May 10 at 11:30pm.

### **Mid-term test - 25%, Tuesday May 25, 2021**

The mid-term test will be available in Avenue on **Tuesday** May 25, from 12:30pm – 3:30pm. You can start the test at any time during this three-hour window. However, your test answer must be uploaded to the Assignment Drop box by 3:30pm.

### **Exam – 40%, Monday June 14, 2021**

The Exam will cover material from *both* the lectures and the required readings. The exam will be available in Avenue beginning Monday June 14, at 11:30am. Your exam answer must be uploaded to the Assignment Drop box **no later** than Wednesday June 16, at 11:30am.

## **Course Policies**

### **Submission of Assignments and tests**

This course will use tests and assignments to assess your comprehension of the course material. All tests and assignments (excluding group tutorial projects) should be answered individually. All tests and assignments (including group tutorial projects) should be answered in your own words. Do not simply "cut and paste" material out of the lectures, lecture summaries, course readings, or other sources: Doing so does not demonstrate **your** understanding of the course content.

Course assignments should be submitted to the appropriate Assignments drop box in Avenue by the designated due date. Written assignments should be submitted as a Word document or pdf. Video assignments should be submitted as a .mp4, .mov, .avi, or .wmv file. If you are recording your video with an iPhone or android phone, the default file type should meet this requirement. Students looking for alternative recording software might want to consider using the recording functions of [Zoom](#).

If, for any reason, you cannot access the Assignments box before the assignment due date, please email the assignment to me in the specified time frame.

### **Late Assignments**

Late assignments may be subject to a one letter grade per day grade deduction (including weekends). For example, an A- level assignment will be reduced to a B+ if it is received one day late, B if two days late, etc.

Please note: Tests, Quizzes, and the Exam must be submitted in the designated time frame.

### **Absences, Missed Work, Illness**

The expectation for this course is that all components (including participation) will be completed.

All requests for extensions (excluding SAS requests) should be submitted through the [MSAF process](#).

In the event of an approved extension, the assignment will be due four days from the original due date (inclusive of weekends).

In the event of an approved absence from the mid-term test, the make-up test will be posted to Avenue on **Friday May 28**. The test will be available from 12:30pm to 3:30pm. You can start the test at any time during this three-hour window. However, your test answer must be uploaded to the Assignment Drop box by 3:30pm.

### **Course Software and Technology**

This course incorporates and utilizes several technological platforms:

#### **Avenue to Learn**

In this course we will be using Avenue to Learn. Students should be aware that, when they access the electronic components of this course, private information such as first and last names, user names for the McMaster e-mail accounts, and program affiliation may become apparent to all other students in the same course. The available information is dependent on the technology used. Continuation in this course will be deemed consent to this disclosure. If you have any questions or concerns about such disclosure please discuss this with the course instructor.

## **Turnitin.com**

In this course we will be using a web-based service (Turnitin.com) to reveal authenticity and ownership of student submitted work. Students will be expected to submit their work electronically via Avenue to Learn (A2L) plagiarism detection (a service supported by Turnitin.com) so it can be checked for academic dishonesty. Students who do not wish to submit their work through A2L and/or Turnitin.com must still submit an electronic copy to the instructor. No penalty will be assigned to a student who does not submit work to Turnitin.com or A2L. All submitted work is subject to normal verification that standards of academic integrity have been upheld (e.g., on-line search, other software, etc.). For more information please refer to the [Turnitin.com Policy](#).

## **Zoom**

In order to fully participate in live tutorials, students require access to [Zoom](#). Students should register for a free account (and download the relevant software) through [McMaster's zoom website](#). All tutorial participants must access Zoom through their McMaster Zoom account - even if they have previously created a non-McMaster-specific Zoom account.

## **Grades**

Grades will be based on the McMaster University grading scale:

<b>MARK</b>	<b>GRADE</b>
90-100	A+
85-90	A
80-84	A-
77-79	B+
73-76	B
70-72	B-
67-69	C+
63-66	C
60-62	C-
57-59	D+
53-56	D
50-52	D-
0-49	F

## **University Policies**

### **Conduct Expectations**

As a McMaster student, you have the right to experience, and the responsibility to demonstrate, respectful and dignified interactions within all of our living, learning and working communities. These expectations are described in the [Code of Student Rights & Responsibilities](#) (the "Code"). All students share the responsibility of maintaining a

positive environment for the academic and personal growth of all McMaster community members, **whether in person or online.**

It is essential that students be mindful of their interactions online, as the Code remains in effect in virtual learning environments. The Code applies to any interactions that adversely affect, disrupt, or interfere with reasonable participation in University activities. Student disruptions or behaviours that interfere with university functions on online platforms (e.g. use of Avenue 2 Learn, WebEx or Zoom for delivery), will be taken very seriously and will be investigated. Outcomes may include restriction or removal of the involved students' access to these platforms

### **Academic Integrity Statement**

You are expected to exhibit honesty and use ethical behaviour in all aspects of the learning process. Academic credentials you earn are rooted in principles of honesty and academic integrity.

Academic dishonesty is to knowingly act or fail to act in a way that results or could result in unearned academic credit or advantage. This behaviour can result in serious consequences, e.g. the grade of zero on an assignment, loss of credit with a notation on the transcript (notation reads: "Grade of F assigned for academic dishonesty"), and/or suspension or expulsion from the university.

It is your responsibility to understand what constitutes academic dishonesty. For information on the various types of academic dishonesty please refer to the [Academic Integrity Policy](#).

The following illustrates only three forms of academic dishonesty

- Plagiarism, e.g. the submission of work that is not one's own or for which other credit has been obtained.
- Improper collaboration in group work.
- Copying or using unauthorized aids in tests and examinations.

### **Copyright and Recording**

Students are advised that lectures, demonstrations, performances, and any other course material provided by an instructor include copyright protected works. The Copyright Act and copyright law protect every original literary, dramatic, musical and artistic work, **including lectures** by University instructors

The recording of lectures, tutorials, or other methods of instruction may occur during a course. Recording may be done by either the instructor for the purpose of authorized distribution, or by a student for the purpose of personal study. Students should be aware that their voice and/or image may be recorded by others during the class. Please speak with the instructor if this is a concern for you.

## **Academic Accommodation for Religious, Indigenous or Spiritual Observances (RISO)**

Students requiring academic accommodation based on religious, indigenous or spiritual observances should follow the procedures set out in the [RISO](#) policy. Students should submit their request to their Faculty Office *normally within 10 working days* of the beginning of term in which they anticipate a need for accommodation or to the Registrar's Office prior to their examinations. Students should also contact their instructors as soon as possible to make alternative arrangements for classes, assignments, and tests.

## **Academic Accommodation of Students with Disabilities**

Students with disabilities who require academic accommodation must contact [Student Accessibility Services](#) (SAS) at 905-525-9140 ext. 28652 or [sas@mcmaster.ca](mailto:sas@mcmaster.ca) to make arrangements with a Program Coordinator. For further information, consult McMaster University's [Academic Accommodation of Students with Disabilities](#) policy.

## **Faculty of Social Sciences E-mail Communication Policy**

Effective September 1, 2010, it is the policy of the Faculty of Social Sciences that all e-mail communication sent from students to instructors (including TAs), and from students to staff, must originate from the student's own McMaster University e-mail account. This policy protects confidentiality and confirms the identity of the student. It is the student's responsibility to ensure that communication is sent to the university from a McMaster account. If an instructor becomes aware that a communication has come from an alternate address, the instructor may not reply at his or her discretion.

## **Course Modification**

The instructor and university reserve the right to modify elements of the course during the term. The university may change the dates and deadlines for any or all courses in extreme circumstances. If either type of modification becomes necessary, reasonable notice and communication with the students will be given with explanation and the opportunity to comment on changes. It is the responsibility of the student to check his/her McMaster email and course websites weekly during the term and to note any changes.

## **Extreme Circumstances**

The University reserves the right to change the dates and deadlines for any or all courses in extreme circumstances (e.g., severe weather, labour disruptions, etc.). Changes will be communicated through regular McMaster communication channels, such as McMaster Daily News, A2L and/or McMaster email.
